Accenture

### Senior Front-End Developer

- Led the development of scalable and high-performance web applications using React.
- Architected and implemented reusable UI components and front-end libraries to streamline development processes and maintain consistency across projects.
- Designed and optimized complex state management solutions using tools like Redux, Context API to handle dynamic and large-scale applications.
- Conducted code reviews, provided constructive feedback, and mentored junior developers to improve team performance and code quality.
- Collaborated with UX/UI designers to create intuitive and visually appealing user interfaces while ensuring alignment with brand guidelines.
- Integrated RESTful APIs and GraphQL endpoints to enable seamless communication between front-end and back-end systems.

2018 - 2021

Accenture

### Front-End Developer

- Built and maintained responsive websites using HTML, CSS, and JavaScript, ensuring compatibility across different browsers and devices.
- Translated design mockups into functional, pixel-perfect web pages while adhering to best coding practices.
- Debugged and resolved UI/UX issues to improve website performance and user experience.
- Assisted in integrating APIs and backend services to ensure seamless data flow and functionality.
- Collaborated with designers and backend developers to deliver cohesive, user-friendly applications.
